The best underwater photos of the year reveal shipwrecks, sharks, and terrifying deep-sea creatures

### **Underwater photos show shipwrecks, sharks, deep-sea ...**

The sharks tend to favor different wrecks from year to year, but a few in particular boast consistently good sightings during peak season (from June to October). One of the most established shark-spotting sites is the wreck of the Papoose, a 412-foot tanker torpedoed by U-124 during WW II in 1942.

North Carolina's shipwrecks play an important roles in the lives of tiger sharks. [Photo credit John McCord/Coastal Studies Institute] Less than a year after the North Carolina Aquariums launched "Spot A Shark USA," a citizen science program, lead researchers have issued initial findings in a manuscript published in the journal "Ecology" today.

### **Study: Tiger sharks use N.C. shipwrecks as migratory 'rest ...**

"This indicates shipwrecks are potentially critical habitats for sand tiger sharks and worthy of further research." These findings are similar to research along the eastern Australia coast and in offshore waters of South Africa, which shows "sand tiger sharks exhibit high site fidelity on offshore reefs as juveniles and adults," Paxton ...

I was unsure where to place the Doña Paz disaster in the list of the 10 worst sharks attacks in the world because despite the huge death toll, the vast majority of victims burned to death. However, over 300 bodies were later recovered from the seas covered in shark bites, so there was a huge shark involvement too.
